***Reasons For Allowance***

1. Claims 12-13 and 15 (renumbered as 1-3) are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of Merritt et al. (US 6,421,429) provides for a configurable image processing device to read and output and image data (Fig. 4A, elements 22 and 26, col. 7 lines 13-15, note that session manager 22 provides the image format and protocol conversion process controller 26 with the format and protocol of the called device 40, which corresponds to output device) comprising an input means unit (Fig.4 element 30) to get an input image (Fig.4A note originating image data) and an output unit (Fig.4A note terminating image) that provides a particular output format depending on a final device that receive such output image data ( Fig.4A element 40, col.7 lines 14-15, note called device) , a selection unit that selects a particular group of atomic operations to be performed on the basis of a performance of said final device ( Fig.4A element 26, lines 19-26), so creating a specific sequence of said atomic operations providing meaningful information (Fig.4A element 26) for the said final device ( Fig.4A element 40). The prior art of Merritt et al. failed to teach or suggest for at least first and second units of processing called "transforms" configured in a dynamic pipeline to perform said specific sequence of atomic operations, wherein said first and second transforms process data in a context independent fashion, that being there is not implied knowledge coupled between said first and second transforms influencing the means of process data. As cited in independent claim 12.

Art Unit: 2627

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
